Resources for R&D Staff

The NHS [R&D Forum Resource Exchange](#) is a searchable, categorised set of resources and case studies submitted by members of the Forum community. The exchange aims to share practice and provide support in all the essentials of running health & care R&D Departments across the UK.

The exchange relies upon all members to keep content up-to-date and relevant

Research and Development Forum Training

The Forum offers a range of training courses all designed and delivered by experienced Forum members and trainers. Click [here](#) for current courses

Future courses development, include master classes for more detailed subject-specific training.

Research and Development Forum Events

You can find events arranged listed [here](#).

HRA Guidance for Researchers regarding Data Protection and Information Governance

Please see the [link](#) for the latest guidance from the HRA on this subject
